Divinol Syntholight LeMans 5W-30

Product description

Divinol Syntholight LeMans 5W-30 is a special HC synthetic oil for modern petrol and diesel engines specially designed for French vehicles. The new formulation "Fuel Economy" guarantees fuel-savings. The additives provide protection against sludge, carbon deposits, varnish and corrosion, even under worst case conditions. All those benefits help to extend life of exhaust systems, e.g. in three-way catalysts, to minimize deposits in diesel particulate filters (DPF) and reduce the total exhaust emissions, as required for an oil to ACEA C2. Fastest possible lubrication of the engine, even at temperatures below -25 °C are guaranteed.
